Ingeo down home textiles

Naturally advanced materials

INGEO DOWN

Can ingeo down product make a difference to your life?

Ingeo down is a completely new, innovative, and more socially responsible material. It's a better choice for filling and warm-keeping. Better for the planet, better for you and your family too.

Ingeo down, containing 37% PLA, is an ingenious and naturally advanced material made from renewable and abundant natural resources. Ingeo down represents a step in the right direction, because it's a product that comes with a conscience. Choosing it for a new generation of pillows, quilts, mattresses and clothes means you become part of a whole new buying power that's focused on being more responsible about how we live our lives.

Your action, no matter how small, combined with others, can help change the world for the better.

Ingeo Down is a pure and nature-based innovation for contemporary living

Ingeo Down has outstanding thermo-regulating properties

Ingeo down has smoother feel, exceptional fillpower and long lasting comfort

Ingeo Down inhibits growth of bacteria and mites, and has proven that it will not cause allergic symptom

Ingeo Down is OKTEX-100 certified, which means it is available for infants and babies

Ingeo Down has outstanding moisture management properties and breathability

Ingeo Down performs well in flammability testing

Ingeo Down innovations have a natural resistance to staining

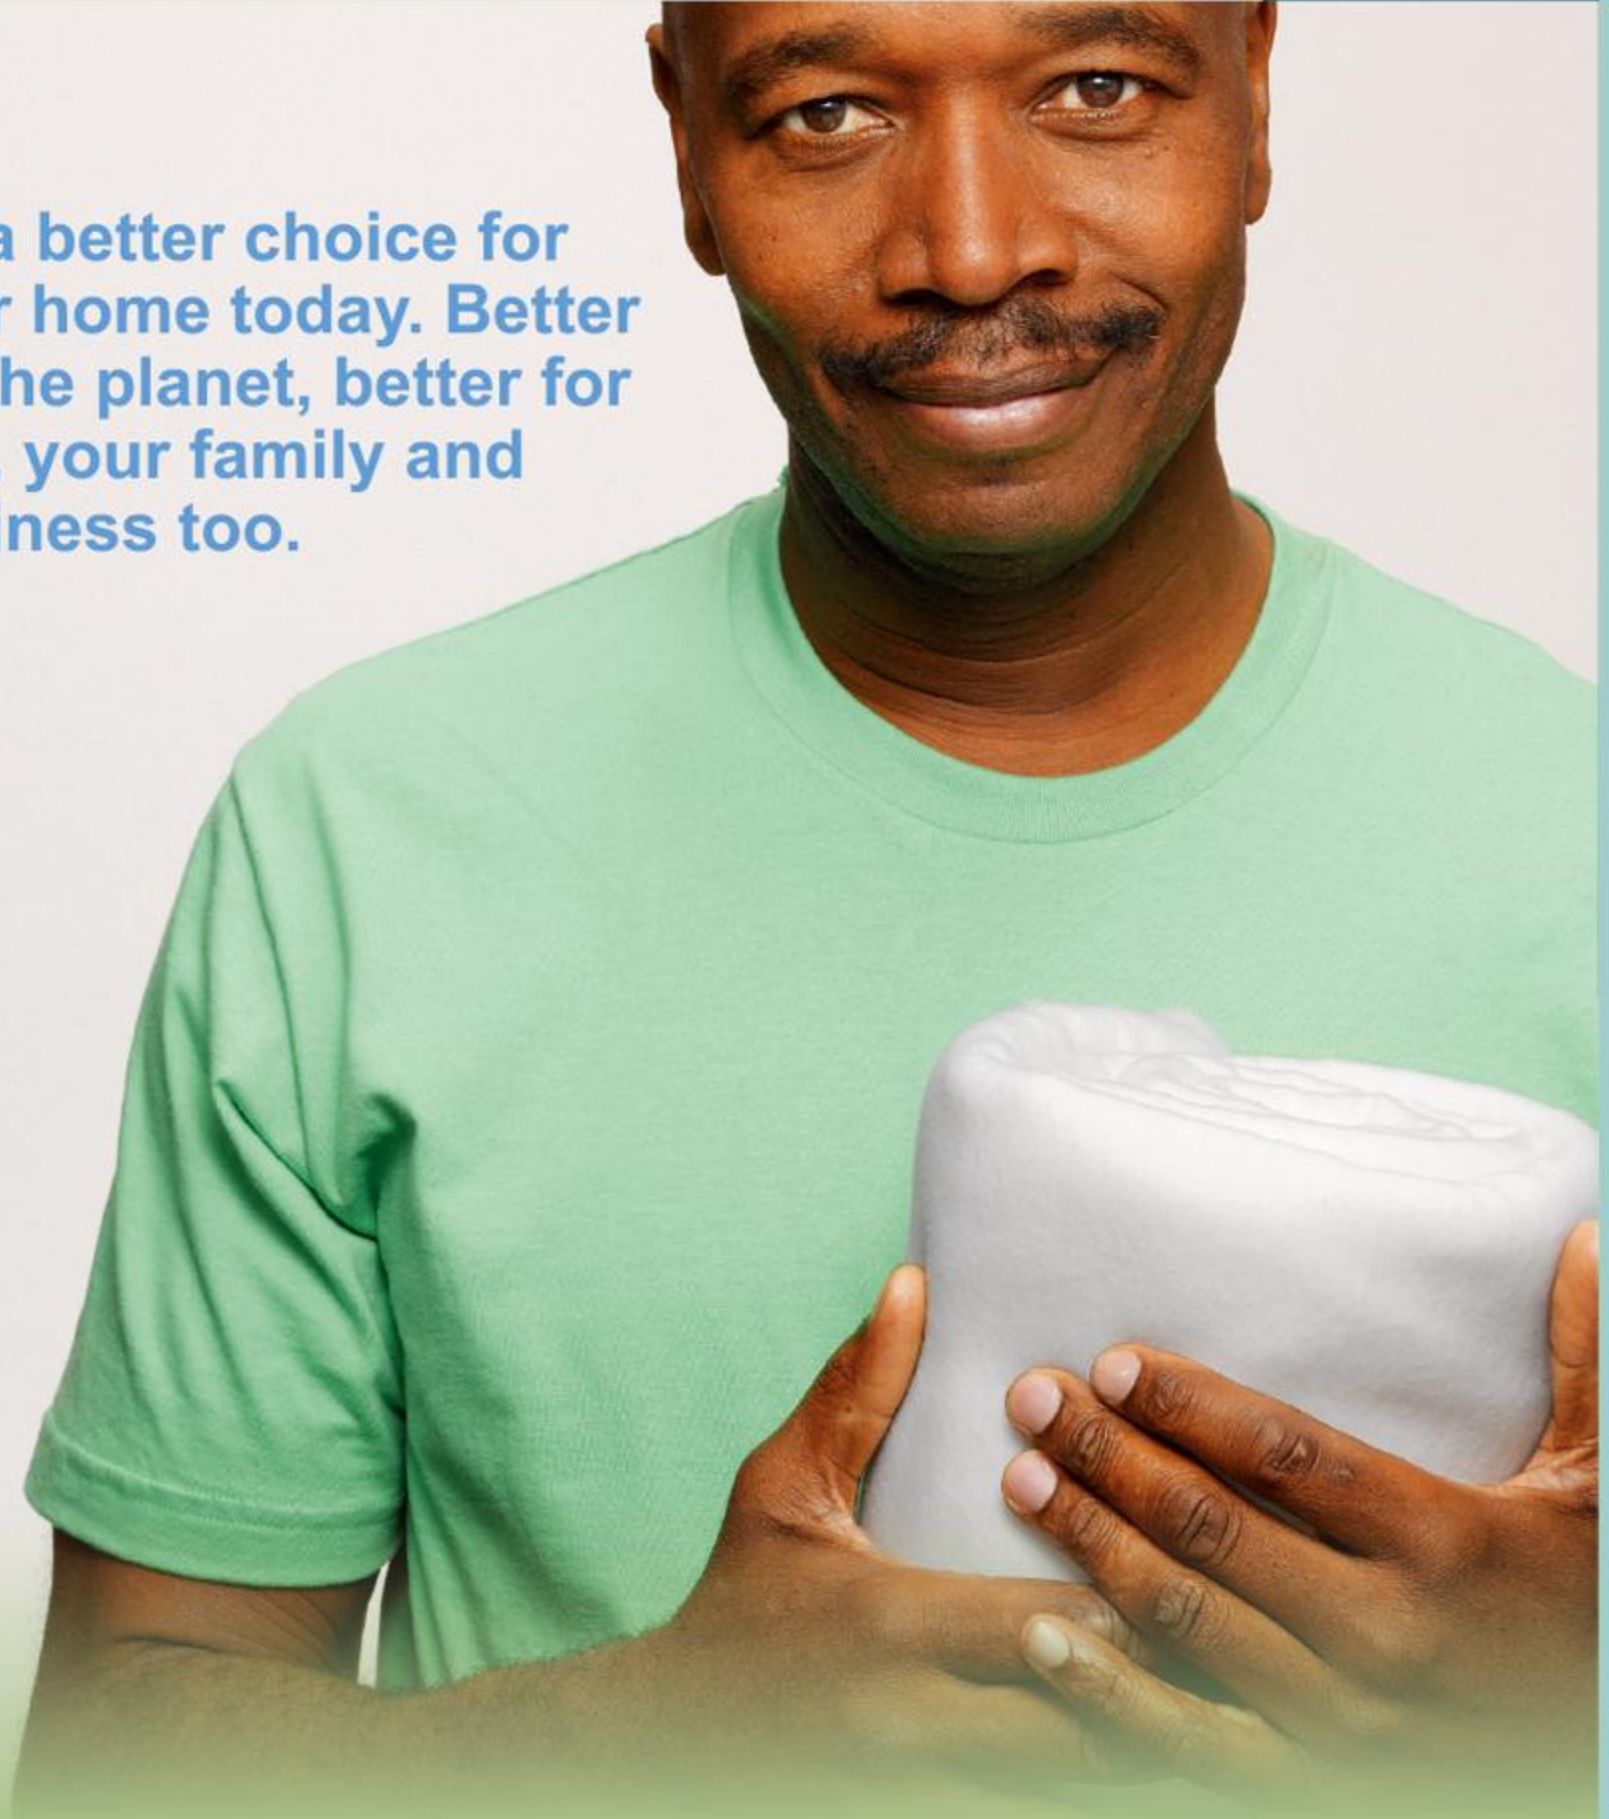

Ingeo Down has very low odor retention

Ingeo Down emits fewer greenhouse gases

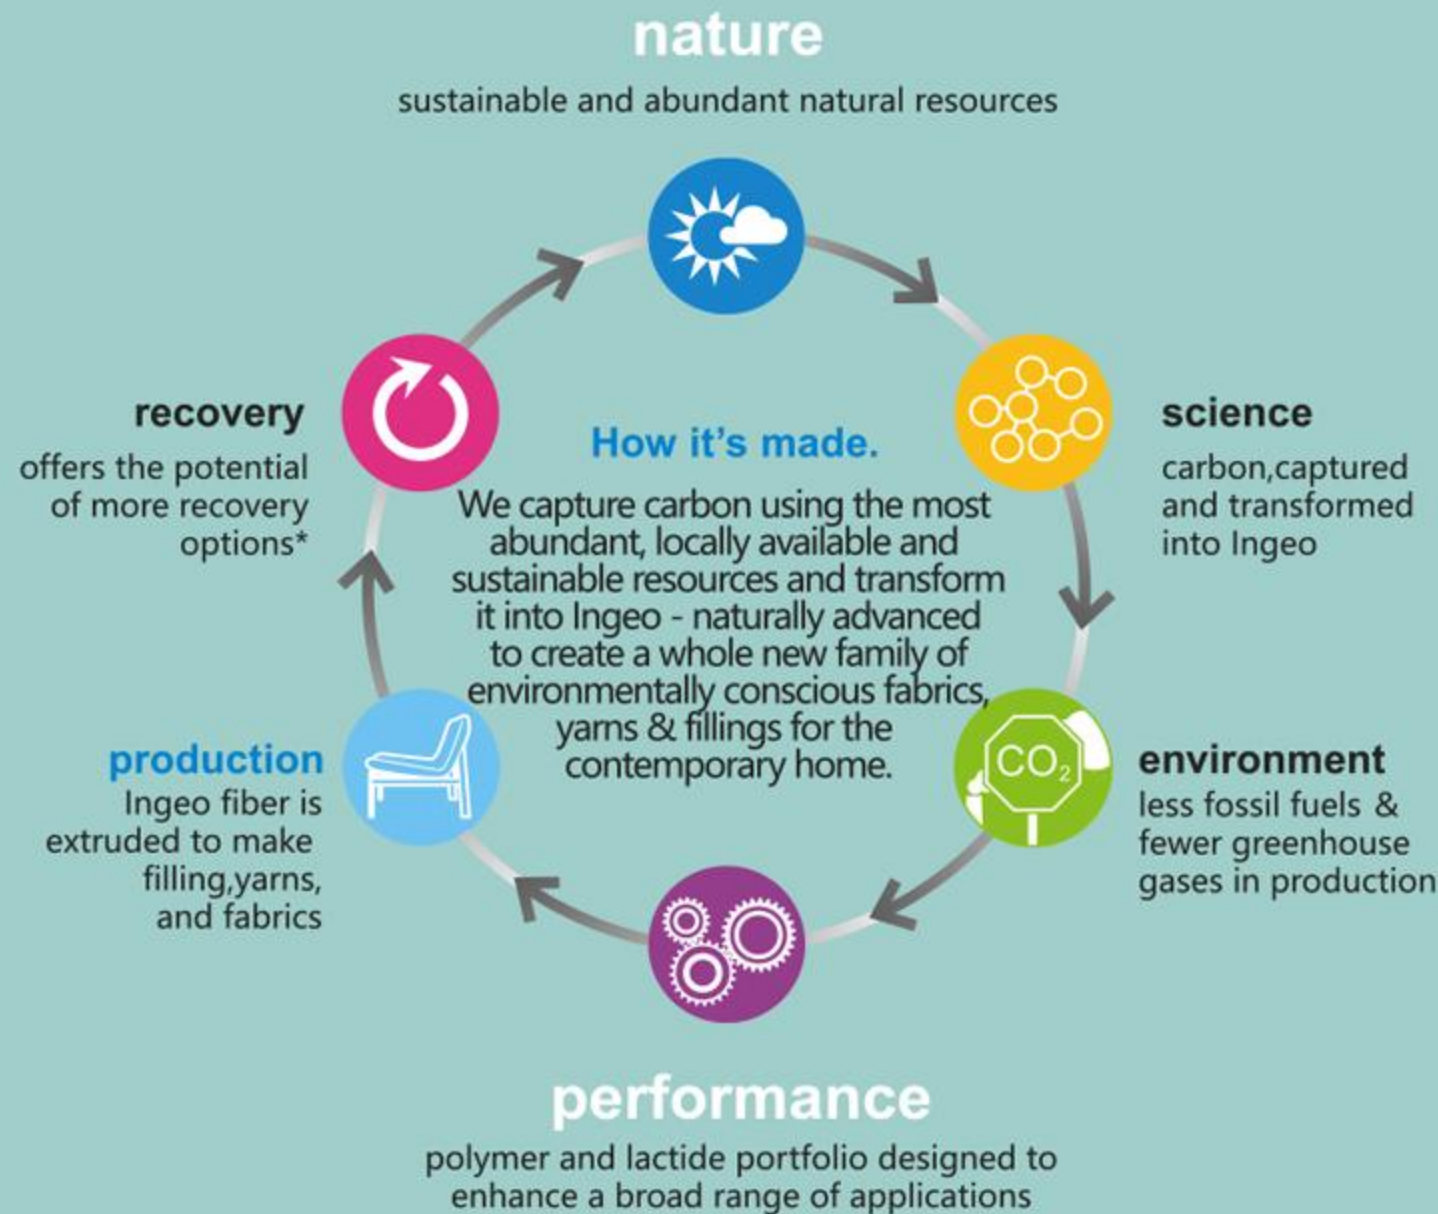

Ingeo Down requires less fossil fuel from cradle to pellet

Ingeo Down contributes to a smaller carbon footprint

It's a better choice for
your home today. Better
for the planet, better for
you, your family and
business too.

Here ! Ingeo Down can be many good products !

Ingeo down represents a brand new product of green and healthy textile. It shows THREE SPECIFIC ATTRIBUTES that are highly relevant to consumers.

ENVIRONMENT

Low carbon footprint, reducing consumption of non-renewable resource, made from raw material certified by USDA, having access to mechanical or chemical recycling after use.

RESPONSIBILITY

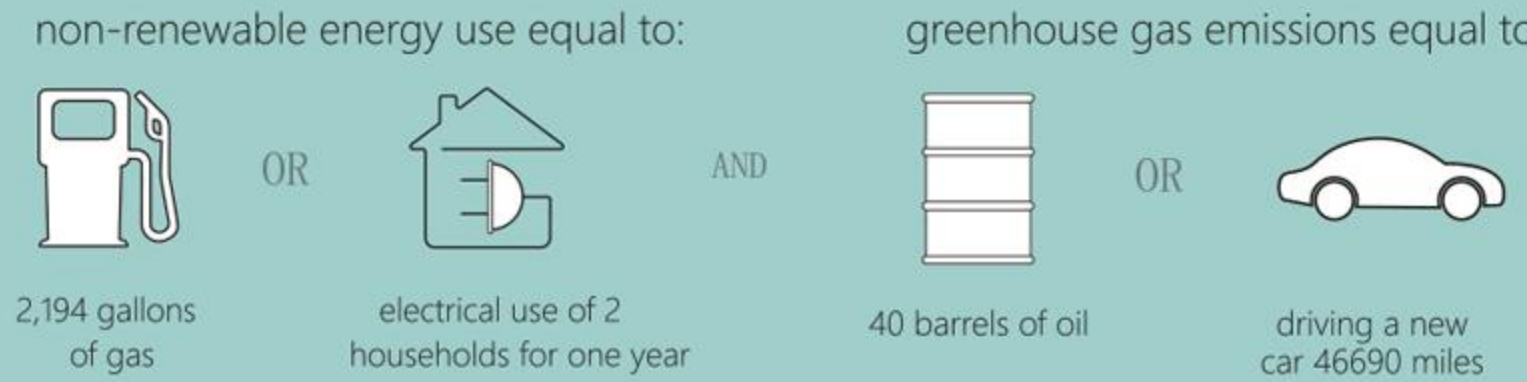

It is socially responsible to produce and consume natural, safe materials from sources other than petrochemicals. green consumption, green products

FUNCTIONALITY

All tests conducted by Huntingdon life science in the United States according to international standards prove that Ingeo fiber does not irritate the skin and eyes, in line with the laboratory safety code, so that health benefits.

Did you know?

Did you know that if you convert 10,000 micro-fiber fleece blankets to ones made from ingeo fiber, it would save the following ? :

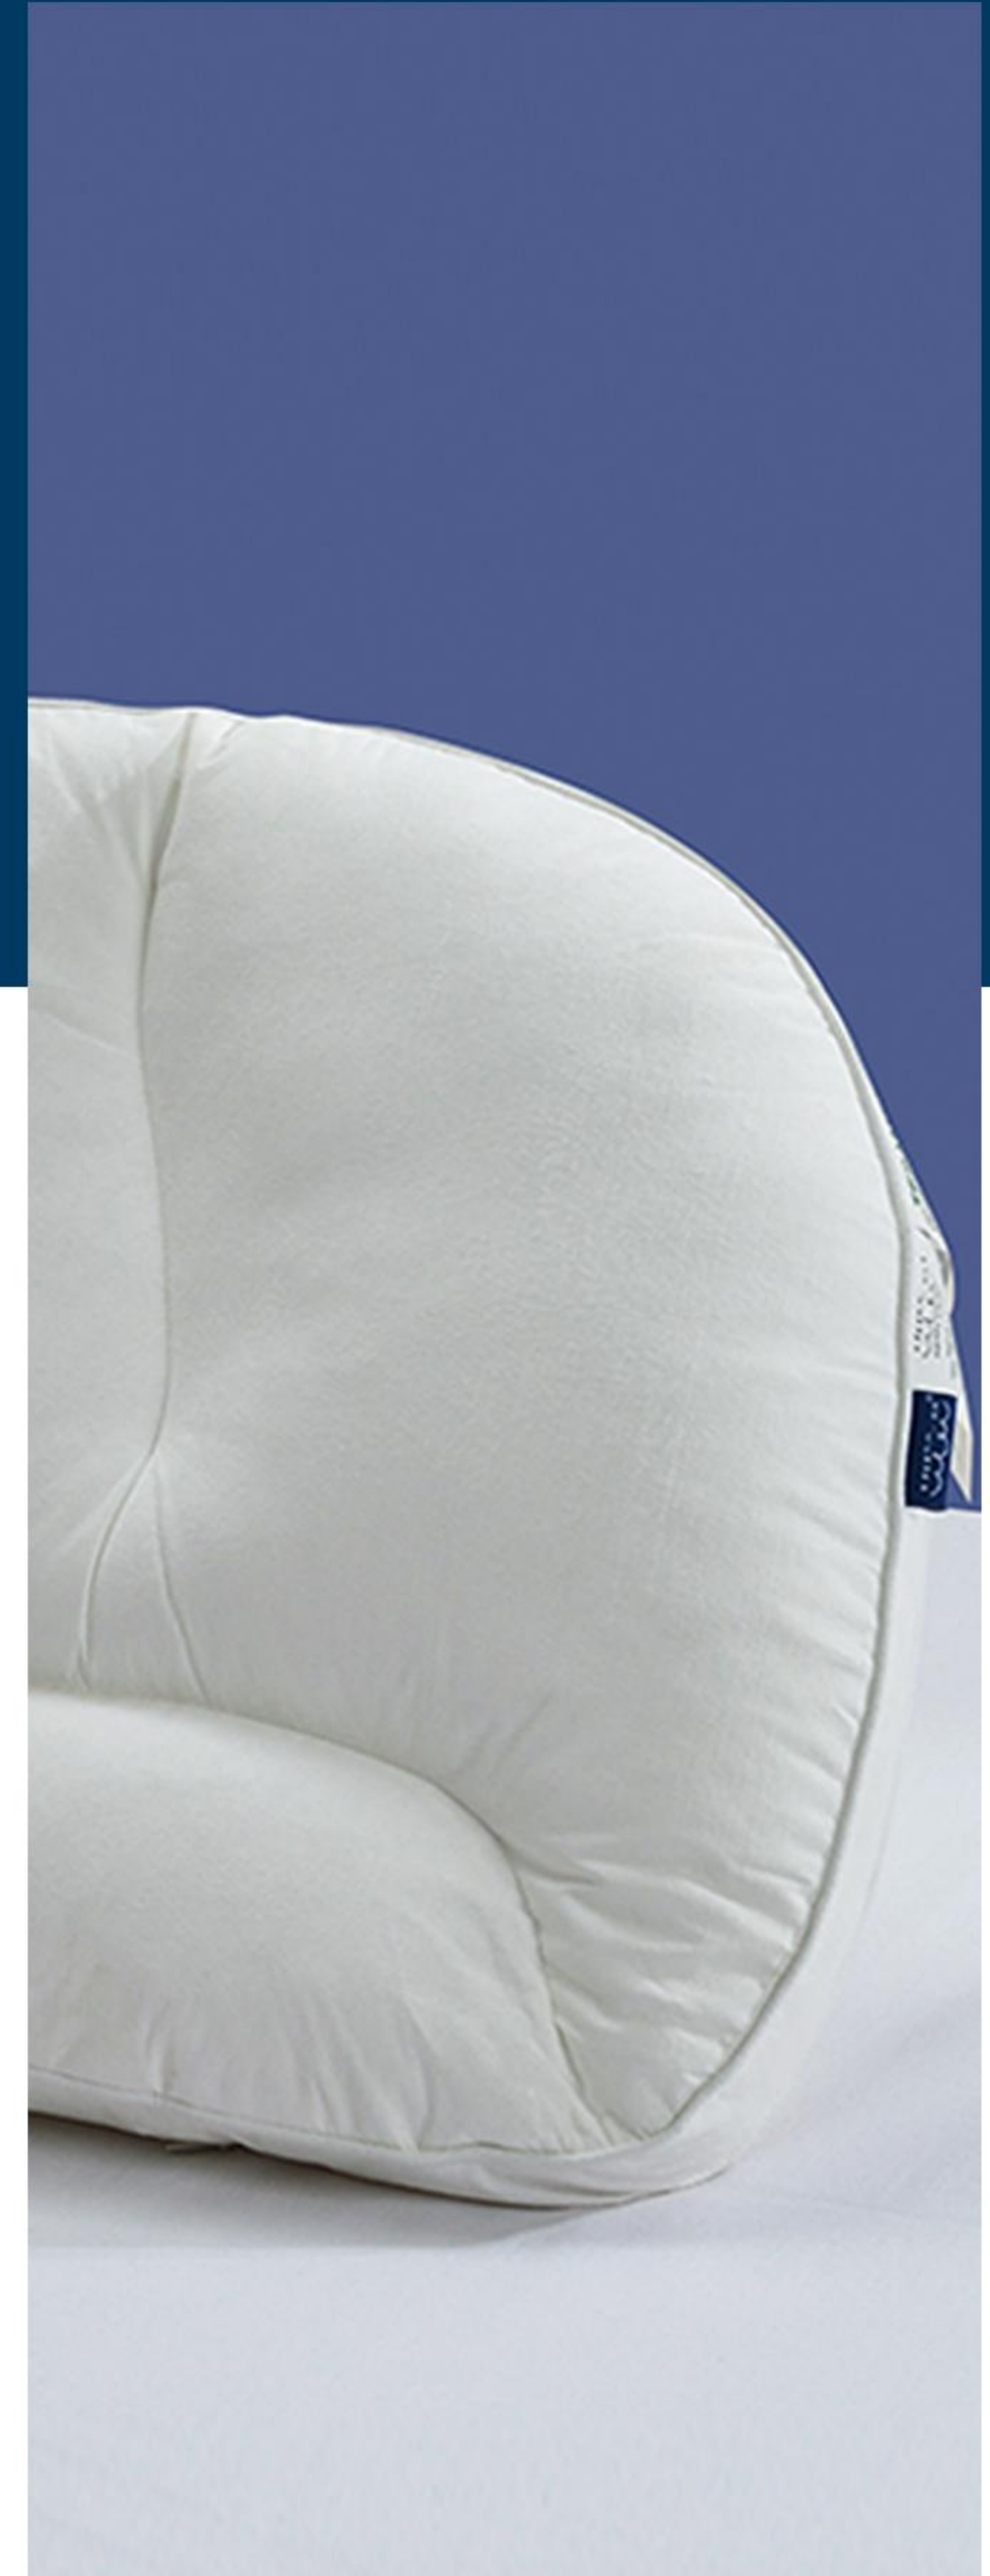

*These benefits are provided as an example and are based on the eco-profile of Ingeo biopolymer and available data on PET. Assumes complete replacement of the PET in one 810 gram blanket with equal weight of Ingeo, with no changes in the eco-footprint associated with the downstream processing from polymer to finished pillow

Ingeo Fiber

Naturally advanced materials

INGEO FIBER

Can ingeo fiber make a difference to your lifestyle?

We think yes! Did you know that many of the fabric that make clothes that you wear now is neutral or even alkaline, it is virtually harming your skin, there might be some petroleum as material to make the fabric. We've changed all that. Now, you can replace many of them with Ingeo fiber, a completely new, innovative, and more socially responsible material.

Ingeo fiber, PLA, is an ingenious and naturally advanced material made from renewable and abundant natural resources. PH 6.0~6.5 is naturally weak acidic, this is the closest pH level to your skin. Prove scientifically that weak acidic material is the best protect to your skin. At the same time, it ensures no harm to your skin and eyes, also prevent being harmed from bacteria. Therefore, this could also be the best fabric material for baby products. Ingeo fiber represents a step in the right direction, because it's a product that comes with a conscience. Choosing it for a new generation of eye patches, underwear, and other kinds of textile products means you become part of a whole new buying power that's focused on being more responsible about how we live our lives. Your action, no matter how small, combined with others, can help change the world for the better.

Ingeo Down is a pure and nature-based innovation for contemporary living

ingeo Fibre has a PH of about 6-6.5 is weakly acidic, has excellent natural skin affinity and is a natural protective barrier for the skin

Ingeo fiber naturally inhibits growth of bacteria and mites, and has proven that it will not cause allergic symptom

Ingeo fiber has long lasting comfort and outstanding moisture management properties

Ingeo fiber performs well in quick dry and breathability

Ingeo fiber is OKTEX-100 certified, which means it is available for infants and babies

Ingeo fiber innovations have a natural resistance to staining

Ingeo fiber has very low odor retention

Ingeo fiber performs well in flammability testing

Ingeo fiber emits fewer greenhouse gases

Ingeo fiber requires less fossil fuel from cradle to pellet

Ingeo fiber contributes to a smaller carbon footprint

Ingeo fiber is a better choice for your underwear, and other kinds of textile products. Better for the planet, better for you, your family and business too.

Here! Ingeo fiber can be many good products!

Did you know?

Did you know that if you convert 10,000 polyester performance sports shirts to ones made with Ingeo fiber, it would save the following:

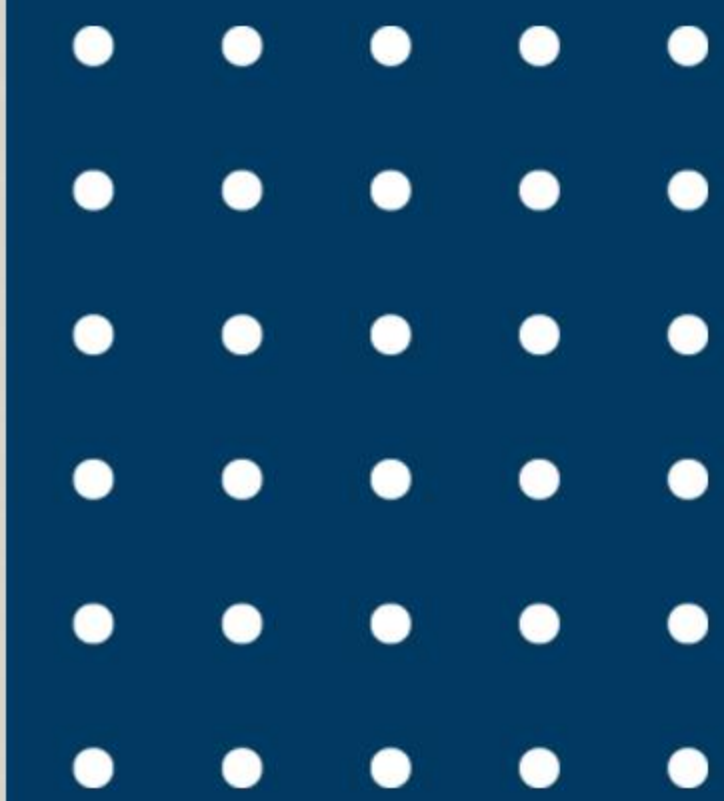

These benefits are provided as an example and are based on the eco-profile of Ingeo biopolymer and available data on PET. Assumes complete replacement of the PET in a 200 g T-shirt with equal weight of Ingeo fiber, and no changes in the eco-footprint associated with the downstream processing from polymer to finished garment.
